WELCOME to FOX FARM Soil & Fertilizer Company®

FoxFarm was born and raised in Humboldt County in the early '80s out of a desire to offer a different kind of garden soil that was not sterilized in any way. At that time, most soils were designed to be free of soil microbes, but I knew they were the key to giving life to plants — from the ground up. My gratitude to Humboldt County has never wavered. FoxFarm grew out of the cultural movement of the Seventies that had us coming together as a people and a community. Humboldt County has allowed us to blossom into an internationally recognized company. We are proud to provide amazing gardening products for Humboldt County, our nation, and the world.
